

Broadband Connection Voucher Scheme

Businesses can boom with the right connection. Calling all Local Businesses, have you applied for your Broadband Connection voucher yet?

If not, time is running out, so please apply and reap the benefits that a fibre broadband connection can bring to your business.

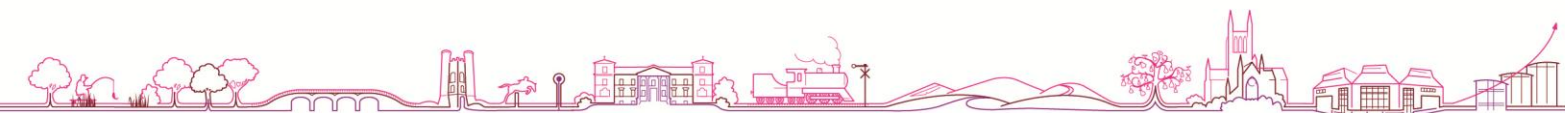

The Connection Voucher Scheme, which was recently launched, enables eligible businesses to claim grants of up to £3,000 towards the cost of upgrading to Superfast Broadband. The cut-off date for applications was originally March 2016. However, due to its popularity, funding is expected to run out soon.

The connection voucher scheme is designed to get eligible business, charity, voluntary organisation, SMEs, Sole-traders and businesses run from home connected to superfast broadband. Your connection voucher will be worth between £100 and £3,000 and can be used for all or part of the capital and equipment costs of getting a better, faster connection direct to your business. You only pay VAT (if applicable) and the monthly line rental to your service provider.

For further information, or to apply, visit www.broadbandvoucher.net

The roll out of fibre broadband across Worcestershire is continuing at pace and it's so exciting to see how it's transforming the way people live, work and play. To find out whether you too can benefit and to order, visit www.superfastworcestershire.com.

If you are interested in becoming a community champion please e-mail us on superfast@worcestershire.gov.uk, using "community champion" as the title and we'll be in touch.
